

## Viper 640 Class Association – Newsletter Writer and Editor

### Rondar RaceBoats – PR

The Viper 640 Class Association represents the owners and crew of the fastest growing 3 person sport boat class in North America. The Class is owned and controlled by the teams who sail the boats. Our mission is to provide a fast, fun, easy and affordable, high performance one design sport boat to the sailing community. We are evangelists for the sport of sailing, and we want to help rejuvenate one design keel boat racing in North America and elsewhere.

We are looking for a writer and editor to help us.

The Class has an army of volunteers. Some who can write well and some who cannot. We have a vibrant website and forums that produce lots of material. We are looking for someone to help assemble and layout a bi-monthly newsletter (6 per year) + write and contribute articles for the newsletter and website.

The right person will :-

- Possess good technical skills with desktop publishing programs or equivalent.
- Possess great writing skills and enjoy writing articles and occasional promo blasts for regattas etc.
- Be a reasonably active sailor who understands the subject they are writing about.
- Enjoy being invited to sail in Viper events.

Rondar is also looking for someone to help on an occasional basis on North American PR. Rondar is the class appointed builder for the Viper 640 and a builder of the 5-0-5, Firefly, 420, the K6 and other racing sailboats. From time to time they need someone to assist writing press releases and website content and copy for advertisements.

The Class role will pay an honorarium of approximately \$100 per newsletter.  
The Rondar PR role will pay an appropriate hourly rate to reflect experience.
